ABOUT CONTINIA

For over 30 years Continia has been developing add-on solutions for Microsoft Dynamics Business Central to make financial processes efficient and time-saving - It's About Time.

Continia solutions add value to the daily work of Business Central users worldwide. With more than 24,000 solutions sold, Continia is the leading ISV provider of add-on solutions for Business Central.

ABOUT SIMOVA

Simova specializes in the development of industry-independent, smart and fast-to-implement add-on & extension solutions for Microsoft Dynamics NAV and Business Central.

The product portfolio includes solutions for almost all application areas, from document management and telephony integration to the external provision of data from the ERP system. More than 150 customers and 26 partners rely on the various Simova Extensions.

Simova is a 100% subsidiary of tegos GmbH.

PARTNERSHIP

Simova has been successfully selling Continia's Document Capture solution in the German-speaking market since 2015. In addition to its role as an implementation partner for Document Capture, Simova has strongly developed into a technology partner in recent years. Various Microsoft partners also introduce DMS by Simova to their customers in addition to Document Capture. Both solutions complement each other very well and work hand in hand.

PROJECTS

Document Capture by Continia has already been implemented in combination with DMS by Simova in various projects. In all of these customer projects, incoming invoices are processed via Document Capture and archived in the background via DMS by Simova.

All Continia solutions, as well as DMS by Simova and the Connector app DMS to DC by Simova, are available as SaaS.

Example project: Gustav Ehlert GmbH & Co. KG

Gustav Ehlert is a supply chain specialist for consumables in food production. From a wide variety of spice mixes, to packaging of all kinds, to safety clothing, Ehlert has a complete range of products for its customers. Gustav Ehlert has been using Document Capture in combination with DMS by Simova since 2019.

CONCLUSION

Together, management processes with Continia Document Capture and the document management system DMS by Simova can be completely automated for the most part, freeing up more time for more important tasks. It's About Time.

„We appreciate Simova as a long-standing and reliable partner. Simova has already successfully implemented various projects in recent years. With their solutions in combination with Document Capture, they create added value for their customers. We are happy to have Simova as a competent partner.“

Sebastian Radloff, CEO Continia Software GmbH
